

For those customers looking for a dramatic, eye-catching look, our metallic floor coatings are a great option. The pearlescent, iridescent, and translucent effects create a shimmering play of light and colour that will give your surface a contemporary edge. By adding metallic particles to the epoxy, we give the coating a shine that reflects light and creates dramatic colour. **BabcoGarage** can apply this coating using a variety of methods to create a unique, truly artistic floor to compliment any environment. This epoxy coating will last a lifetime, is easy to maintain and resistant to household chemicals. These are gorgeous floors!

METALLIC FLOORING ADVANTAGES
